Profile

Motivated and rigorous computer science engineering student, passionate about software development, artificial intelligence, and competitive programming. Curious and always ready to learn, I enjoy discovering new technologies and taking on new challenges

Education

National School of Computer Sciences (ENSI)

2024–Present

Computer Science Engineering

Preparatory Institute for Engineering Studies of Sfax (IPEIS)

2022–2024

Admitted to the national entrance exam for engineering schools with a ranking of 55.

April 9, 1938, Sfax, Tunisia

2022

High School, Grade: Very Good

Skills

Programming & Development: Java, Python, PHP, C, C++, C#, SQL

Web Development: HTML, CSS, JavaScript, Angular, Django, Flutter

Artificial Intelligence & Computer Vision: Machine Learning, Deep Learning, PyTorch, TensorFlow, OpenCV

Data Intelligence: MySQL

Version Control & Collaboration: Git, GitHub

Soft Skills: Self-taught, Presentation, Teamwork

Experience

Web Development Intern — SEGULA Technologies

Summer Internship

- Contributed to the development of an internal enterprise web platform to digitize administrative services
- Developed modules for employee management, attendance tracking, leave requests, and document handling
- Collaborated within an Agile team to build backend and frontend features, improving dashboard UI and functionalities

Keywords: Django, Next.js, JavaScript, REST APIs, Git, Agile

Academic Projects

Intelligent Recruitment Assistance System

January 2026 - Present

- Developing an HR web platform to analyze candidate videos during the recruitment process
- Utilizing Deep Learning models for deepfake detection, voice analysis, and automated evaluation

Keywords: Python, Deep Learning, TensorFlow, PyTorch, Video/Audio Analysis, Web Development

RAG (Retrieval-Augmented Generation) System for Book Analysis

- Developed an AI-based application capable of analyzing a book and answering user queries based on its content
- Leveraged information retrieval techniques combined with Large Language Models

Keywords: Python, NLP, Machine Learning, RAG

Computer Vision Applications

- Built multiple CV tools including an interactive finger-drawing game using hand tracking
- Implemented real-time face/person detection and image-based duplicate content recognition

Keywords: Python, OpenCV, Deep Learning

Delivery Web Application – Chahia Tunisie

- Built a food delivery app with user authentication, an admin dashboard, and real-time Google Maps tracking

Keywords: HTML, CSS, JavaScript, PHP, MySQL, Google Maps API

C-Based Compiler Development

- Developed a compiler for a C-inspired language, implementing lexical analysis, parsing, and code generation

Keywords: C, Compilation, Parsing

Certifications

Fundamentals of Deep Learning

January 2026

NVIDIA Deep Learning Institute — Credential ID: 1tO0Ys3lTkGJKXM3sgBKrQ

Data Science & Deep Learning Certifications

DataCamp

- **Completed Courses:** Deep Learning with PyTorch (Intermediate, Images, Transformers), Working with Hugging Face, Supervised/Unsupervised Learning, Workflow Automation with n8n
- **Completed Projects:** Classifying X-Ray Images using PyTorch, Investigating Netflix Movies

Extracurricular Activities

Active Member — IEEE ENSI

2024 - Present

Member — ENSI Competitive Programming Community

2024 - Present

Languages

Arabic, French, English
